

PROFESSIONAL SUMMARY

As a senior IT executive with over 25 years of experience, I have managed corporate information technology organizations and led digital transformation programs across the education, energy, manufacturing, and service sectors. In multi-campus environments,

I have overseen large-scale systems comprising teams of 40+ experts, 15,000+ connected devices, and extensive server/network infrastructures. By aligning technological investments with corporate goals, I have developed technology solutions that provide measurable contributions to business objectives in areas such as IT strategy, artificial intelligence (AI) integration, cybersecurity, and cloud transformation.

I possess strong leadership experience in building high-performing multidisciplinary teams in remote or local locations, managing budgets, and fostering a culture of innovation.

CORE EXPERTISE
- IT Strategy
- Digital Transformation
- Artificial Intelligence (AI)
- Cybersecurity
- Cloud Technologies
- Enterprise Architecture
- ERP / LMS
- Data Analytics
- Leadership

EVREN TOMBUL CV

IT Director | Head of IT

EDUCATION

Master's Degree – Computer Engineering, 2023–2024 |Ahmet Yesevi University
Bachelor's Degree – Computer Engineering, 2004–2009 |Ahmet Yesevi Uni.
Associate Degree – Computer Programming, 2000–2003 |Mersin University
Bachelor's Degree – Business Administration, 2006–2012 |Open Edu. Fac. AOU
High School - Computer – 1996 – 2000 | Maçka Akif Tunçel ATL.

PROFESSIONAL EXPERIENCE

Kiva Teknoloji – Business Development Executive

1.10.2026 – 31.10.2026 - www.kiva.com.tr
I have developed and managed software projects.

Eyüboğlu Education Institutions – IT Manager

1.08.2023 – 1.07.2026 - www.eyuboglu.k12.tr
Served as the IT Director for Eyüboğlu Educational Institutions, consisting of 3 campuses, 14 schools, and a headquarters in Istanbul. Led the analysis, design, and development processes of custom software projects for corporate operations.
• Formulated the corporate IT strategy and aligned technology investments with institutional goals.
• Led digital transformation projects, moving numerous manual business processes to digital platforms.
• Managed the preparation and corporate-wide implementation of AI usage policies.
• Administered the secure and efficient use of Microsoft 365 and Google Workspace platforms, standardizing identity management, security policies, and user lifecycle processes.
• Optimized the IT budget, license management, and procurement processes.
• Planned and conducted cybersecurity awareness training.
• Contributed to ISO 27001, KVKK (Turkish Data Protection Law), and information security processes.
• Prepared Disaster Recovery and Business Continuity plans.
• Managed vendor relations and SLA processes with technology suppliers.
• Managed network infrastructure modernization projects.
• Managed server virtualization and cloud transformation projects.
Designed Microsoft Azure, Google Cloud, and Hybrid Cloud architectures.
• Established a KPI and SLA-focused performance management model in IT operations.
• Developed IT Service Management processes.
• Planned and conducted training programs for teachers and administrative staff on digital transformation, AI, and next-generation educational technologies.
• Developed AI-supported automation projects.
• Took an active role in educational technology committees. Established policies for Google Classroom, EBYS (Electronic Document Management System), 1:1 Tablet Projects, BYOD, Smart Board Entegrations and Follett Destiny.
• Led the IT infrastructure planning, capacity management, and establishment of technology standards for the campuses.
• Defined technology standards across the institution.
• Conducted information security risk analyses.
• Managed corporate data backup and business continuity architecture.
• Designed a corporate MDM infrastructure encompassing 300+ Apple devices, 120+ Digital Signage screens and 2000+ Win. clients to centralize security,inventory and app. management.
• Developed a Fortinet-based security architecture to enhance corporate network security; improved Aruba network segmentation, VPN, IPS, web filtering, and log management processes.
• Managed SLAs, contracts, licensing, maintenance, procurement, and bidding processes with companies like HP, Dell, Lenovo, Apple, Fortinet, Microsoft, Google, Adobe, VMware, and Dahua.
• Managed KVKK processes, Law No. 5651 compliance, ISO 27001, Cybersecurity policies, Incident Response, Risk Analysis, Vulnerability Assessment, MFA, Zero Trust, Backup Strategy, Disaster Recovery, and Business Continuity processes within the scope of information security.
• Prepared corporate-wide AI usage policies; guided the secure and efficient use of Gemini, ChatGPT, Copilot, Claude, and NotebookLM solutions, and delivered Prompt Engineering training.
• Structured and managed ITIL-based Service Desk, Change Management, Problem Management, Configuration Management, Release Management, and Asset Management processes within the scope of IT Governance.

LANGUAGES

Turkish - Native

English – C1 | Advanced

TOEFL Score: 85

German – A2

PERSONAL INFORMATION

Place of birth – Munich / Germany

Date of birth – June 29, 1982

Gender – Male

Marital status – Married / Father of 2 children

Military service status – Short term service / December 2009- May 2010

Nationality – Turk TC

OTHER INFORMATION

Travel restrictions: None

Smoking habit: None

Driving license: Class B

Date of issue: October 27, 2005

Hobbies: Playing flamenco guitar, photography, design, logic games, internet research, table tennis, swimming

UNIT International – IT Manager

1.03.2023 – 31.07.2023 - www.unit.com.tr

● Led IT operations and infrastructure for a global energy and investment firm, managing IT teams across five power plant locations in Turkey.

İstek Education Institutions – IT Manager

29.04.2018 – 01.02.2023 www.istek.k12.tr

Served as **IT Manager** at **İSTEK Schools**, one of Türkiye's leading K–12 education groups, consisting of **22 campuses** (13 owned campuses located in Istanbul, Antalya, İzmir, Kocaeli, and Kütahya, 9 franchise campuses) and a central administrative headquarters.
Led the planning, implementation, and management of enterprise IT infrastructure supporting approximately **2,500 staff accounts**, **20,000 student digital accounts**, and over **7,000 endpoint devices**. Contributed to the development of institutional IT governance, cybersecurity, and educational technology policies while ensuring high availability, security, and scalability across all campuses.

- VMware vCenter Server Management (70+ virtual servers, 30+ physical servers)
- Active Directory & Domain Server Management
- Kaspersky & Symantec Endpoint Security + EDR Management
- Kurumnet Server Management
- Jamf MDM Management (1,000+ Apple devices)
- Karel IP PBX Management (3,000+ wired and wireless phones)
- Canon Central Printing Systems Management (300+ devices)
- File Server & NAS Management (HP Nimble Storage)
- Microsoft & Linux Web Server Management
- Koha Library Automation Project
- Hyper-V & VMware Server Management
- Logo Tiger ERP, HR & Payroll Server Management
- Azure AD Connect (DirSync) Management
- Remote Management Software Administration
- FortiGate Firewall & FortiAnalyzer Management
- Logsign SIEM & 5651 Hotspot Management
- Client Device Management (PC, Laptop, Tablet, Interactive Board, Mobile, Mac, iPad, Linux)
- Educational Technology & Instructional Technologies
- Standardized 1:1 Tablet and BYOD policies
- Implemented Windows AD authentication with MIFARE cards
- Managed Meyer Access Control Systems, 200+ turnstiles, 10+ barriers, and cashless cafeteria systems
- Classroom Applications for iPad (iMovie, Keynote, Numbers, Pages, Educational Apps)
- Moodle LMS Administration & Training
- Web 2.0 Tools & Tablet Applications for Education
- Computer Science Courses (K-12)
- Windows, macOS & Linux Administration
- Microsoft Office (Windows, macOS & Linux)
- Graphic Design Courses
- Web Design Courses
- Web Programming Courses
- Maker Club (Makey Makey, Arduino, Raspberry Pi)
- UBD & Google Apps for Education Training
- Google Classroom Administration & Training
- Educational Technology Leadership
- Social Media in Education Training
- Digital Citizenship Training
- Adobe Administration (500+ user accounts)
- Raspberry Pi Digital Signage Systems (200+ devices)
- IoT Projects (500+ devices), including Arduino-based monitoring and automation
- RFID Beacon Projects for student tracking, access control, occupancy, and health monitoring
- Python-based AI, Monitoring & Reporting Projects
- Google BigQuery, Looker, Google Cloud & Microsoft Power BI Projects
- Google Workspace Administration & Training.
- I developed AI-powered enterprise projects using academic data analysis tools such as R, Shiny, and Jamovi to optimize assessment and evaluation, and Geographic Information Systems (ArcGIS) processes.

PROFESSIONAL COMPETENCIES

• Strategic Thinking & Results-Oriented Decision Making
• Developing Technology Strategies Aligned with Business Objectives
• Leadership in Digital Transformation & Change Management
• Team Building, Mentoring & Organizational Development
• Effective Stakeholder Management Across Executive, Business & Technology Teams
• Crisis Management & Business Continuity Planning
• Risk Analysis & Corporate Governance
• Establishing a Culture of Continuous Improvement
• Data-Driven Decision Making
• Customer- and User-Centric IT Managementyönetimi

CV Updated: 01.11.2026

Ulus Private Jewish Schools – IT Manager

01.05.2011 – 24.04.2018 – www.uoml.k12.tr

Returned as IT Manager. Managed Firewall (WatchGuard), Network (Cisco, Lancom), physical and virtual servers (Hyper-V, PDC, ADC, Azure, DirSync, Symantec Endpoint, Accounting Systems, Logsign, File Servers, Veeam Backup, WSUS, Moodle, etc.), and designed institutional websites. Administered enterprise systems used by more than 1,000 users, ensuring high availability and uninterrupted operation. Managed Google Workspace and Microsoft Office 365 E1 environments and delivered training as a Google Certified Trainer.

• Server Management
• Domain Server Active Directory management
• Symantec Antivirus server management
• Kurumnet Server management.
• File servers and NAS systems management
• Web servers management (Microsoft, Linux)
• HyperVisor and Vmware servers management.
• Accounting program server management (Dendata, Nebim)
• Azure Dirsync Servers management
• Remote Controller programs management
• Watchguard Firewall Systems and Log servers management
• Logsign Log server management
• Computer clients managements.(PC, Laptop, TabletPC, SmartPC, Interactive Boards, Mobile devices, Mac, iPad, Linux clients)
• Educational Technology Leadership Project
• Educational Technology and Basic Approaches
• 1:1 Tablet Applications
• iPad Applications in Classroom (iMovie, Keynote, Numbers, Pages, Educational apps)
• Mac OS X, Windows and Linux Operating Systems
• Microsoft Office for Mac / Windows / Linux
• Graphic Design Course (Prep,9,10,11,12 Grades)
• Web Design Course (Prep,9,10,11,12 Grades)
• Web Programming Course (Prep,9,10,11,12 Grades)
• Maker club - Makey Makey, Arduino, RaspberryPI course (Prep,9,10,11,12 Grades)
• Design of Learning Environments with UBD and Google Apps for Education, Training
• Feedback & a Learning Management Platform as Google Classroom

Altar Information Technologies – Java Developer

01.09.2010 – 22.04.2011

Worked as a **Java Software Developer**, contributing to projects for **ETS Tur**, **Atlasjet**, **herevelazim.com**, and other enterprise applications. Developed Java-based solutions, primarily focusing on web application development using **JSP** and **Servlet** technologies. Later returned to **UOMO (Altar Technology)** when an opportunity became available.

Ulus Private Jewish Schools – IT Manager

01.03.2007 – 10.09.2009

Worked as an IT Manager. Installed and administered Windows Server 2003 ISA Server, Active Directory Domain Server, and the OkulNET School Management System. Provided Help Desk and technical support services for approximately 150 primary and high school users, ensuring the reliable operation of IT systems. Left the position to fulfill mandatory military service.

Tanışlar Group A.Ş. – IT Manager

25.6.2006 – 28.2.2007

Worked as an IT Manager at the headquarters. Provided IT support for end users at the head office and three branch offices, supporting approximately 200 computers. Administered Windows Server 2003 ISA Server, Active Directory Domain Servers, and the Link Accounting System. Designed, developed, and managed the corporate websites of Tanışlar Group.

Evo Bilişim – Co-Owner

02.02.2005 – 8.8.2006

Worked as a **Co-Founder (50% Partner)** in our own IT company, established on **02 February 2005** with a business partner. We provided professional **colocation**, **web hosting**, **website design**, **graphic design**, **system and network installation**, **IT support services**, **LOGO ERP sales and support**, and **computer sales**. We also operated as an authorized **Casper Computer** dealer in Beşiktaş. Due to business performance and differences with my business partner, the company was dissolved on **08 August 2006**, and I left the partnership.

Casper Center (Lego Comp. Kadıköy). – Tech Support

1.9.2004 – 1.1.2005

Provided Help Desk services to customers under maintenance agreements. Performed system, network, and software installations. Delivered on-site installation and deployment services following computer sales.

ARTIFICIAL INTELLIGENCE (AI) & DATA

» Language Models (LLMs) & Tools: OpenAI (ChatGPT), Anthropic Claude, Google Gemini, Microsoft Copilot, NotebookLM, DeepSeek, Local LLMs (Ollama, vLLM, Hugging Face).

• **Generative AI & Architecture**: AI Agent Development (Agentic Workflows), RAG (Retrieval-Augmented Generation), Prompt Engineering (Chain-of-Thought, Structured Outputs), Workflow Automation (n8n/Make), Vector Databases (Pinecone, pgvector, Qdrant), LangChain, LlamaIndex, LangGraph, Model Context Protocol (MCP), CrewAI, AutoGen.

• **AI Governance & Ethics:** AI Ethics & Governance, Data Privacy and Regulatory Compliance, Model Observability & Evaluation (Evals, Observability).

• **Data Engineering & Warehousing**: ETL/ELT Processes, Google BigQuery, Azure Data Factory, Azure Synapse Analytics, Data Pipelines, Data Mining, Big Data Ecosystems (Hadoop, Apache Spark, Kafka), Databricks, Snowflake, dbt.

• **Business Intelligence (BI) & Data Visualization:** Microsoft Power BI, Google Looker Studio, Tableau, Qlik, Dashboard Design & Advanced Analytics, DAX & Power Query.

• **Data Analysis & Statistics:** TensorFlow, PyThorch, MLflow, SPSS, Statistical Modeling, Hypothesis Testing, Advanced SQL.

• **Microsoft Power Platform:** Power Automate, Power Apps.

Clariant Inc. – IT Specialist

21.09.2003- 31.05.2004

Worked as an **IT Specialist** at **Clariant**, a leading global specialty chemicals company. Managed LAN/WAN infrastructure and provided end-user technical support. Participated in the **Windows XP deployment project** and administered **Windows Server 2003 ISA Server** and **Active Directory Domain Servers**. Managed **IBM Lotus Domino R7.0**, **Lotus Notes R7.0**, remote access, and **BlackBerry Enterprise Email** services. Supported enterprise backup operations using **BrightStor Backup**. Participated in the **SAP implementation project** with the central team from Germany, contributing to the successful migration and organization-wide adoption of SAP.

Mersin Uni- IT Center – IT Intern

21.09.2001 - 31.01.2002

Worked on firewall systems, network security, and UNIX/Linux server administration. Contributed to the development of the **Mersin University** corporate website. Assisted in the administration of **FreeBSD** and mail servers. Participated in campus network infrastructure projects, including structured cabling and server installations. Also served as the **Internet Lab Coordinator**.

Casper and Escort Comp. (Beşiktaş) – Tech Support

01.04.1998 - 01.03.2000

Worked part-time while pursuing my studies. Performed computer repair, participated in IT projects, and provided technical support as an IT Technician.

IT COMPETENCIES / TECHNICAL EXPERTISE

1. INFRASTRUCTURE, VIRTUALIZATION & CLOUD

• System Administration: Windows Server (2003 - 2022), Linux/Unix (Ubuntu, FreeBSD), Active Directory, Group Policy (GPO), DNS/DHCP, Apple Ecosystem (macOS, tvOS, iPadOS), File/Print Services, Zabbix Monitoring.
• Virtualization: VMware vSphere / ESXi (VCF, SDDC Manager), Microsoft Hyper-V, Proxmox.
• Cloud Architecture: Microsoft Azure, AWS, GCP, Microsoft 365, Google Workspace (Education Plus), Entra ID (Azure AD), Exchange/SharePoint Online, OneDrive, Teams.
• DevOps & Automation (IaC & CI/CD): Docker, Kubernetes, OpenShift, Terraform, Jenkins, GitLab CI, Ansible, PowerShell, Bash/Shell Scripting.
• Endpoint & Device Management (UEM / MDM): Jamf Pro, EMS & Microsoft Intune, Apple School Manager, Apple Business Manager, Mosyle, ManageEngine, IBM MaaS360, Cisco Meraki Systems Manager.
• Data Backup & Storage: Veeam Backup, EMC Avamar, HP Nimble Storage, NAS, SAN, Velero.

2. NETWORK ARCHITECTURE & CYBERSECURITY

• Network Operations: Enterprise LAN/WAN, SD-WAN, Wireless Networks, VLAN, Load Balancing, VPN, IPsec, Captive Portal / Hotspot.
• Network Hardware & Vendors: Cisco (ASR, Umbrella), HP Aruba, Fortinet, Huawei, MikroTik, Ubiquiti UniFi, Lancom, Meraki.
• Cybersecurity & Firewalls (SecOps): Fortinet (FortiGate 1100E, 900G, 4000F, FortiAnalyzer), Palo Alto (PA-3440, PA-5410), Check Point (Quantum 9800), Sophos, WatchGuard, F5 (WAF), Forcepoint Proxy.
• Security Technologies: SIEM (Logsign, CryptoLog, Splunk, Crypttech CSIEM, Wazuh, Elastic), EDR / XDR (Kaspersky Endpoint, Symantec, CrowdStrike EDR, Trend Micro Deep Security & Apex One, Carbon Black), DLP (Forcepoint, Trellix / McAfee, Broadcom / Symantec, Microsoft 365, Google DLP), NAC (Aruba ClearPass, 802.1X, Cisco ISE), IDS/IPS, DDoS Protection, Zero Trust, IAM (Entra ID, MFA, SSO), PAM (Privileged Access Management), Incident Response, Cryptography & HSM (Hardware Security Module, Certificate & Key Management, Encryption), SOAR (Cortex XSOAR, Crypttech, IBM QRadar, FortiSOAR, Chronicle SOAR), Email Security (SpamTitan, FortiMail, Proofpoint, Barracuda, Sophos, Avanan).

3. SOFTWARE ENGINEERING, WEB & DATABASE

• Frontend & UI: React, Next.js, Vue.js, Angular, TypeScript, JavaScript, HTML5, CSS3, Tailwind CSS, Bootstrap.
• Backend & API: Node.js (Express.js), Python, PHP (Laravel, Symfony), Java (Spring Boot, Spring MVC), C#, .NET, ASP.NET, C/C++, RESTful APIs, AJAX, XML.
• Mobile App Development: iOS, Android, Flutter, React Native / Expo.
• Database Management (DBA & Data): Microsoft SQL Server (MSSQL), MySQL, PostgreSQL, Oracle (RAC, Data Guard), Firebird, MS Access, NoSQL (Supabase, Pinecone, MongoDB, Cassandra).
• Web CMS, Deployment & E-Commerce: WordPress, Joomla, Drupal, WooCommerce, Elementor, Git/GitHub, Vercel, Netlify, cPanel/Plesk, Cloudflare, Web Hosting, VPS/VDS, Google Ads, SEO/GEO Optimization.

4. DESIGN, MEDIA & IMMERSIVE TECHNOLOGIES (XR)

• Multimedia, Design & UI/UX: Adobe Creative Cloud (Photoshop, Illustrator, InDesign, Premiere Pro, After Effects, Audition, Acrobat Pro), Figma, Adobe XD, Canva.
• 3D, Immersive & Engineering: AR / VR / XR (Augmented/Virtual/Extended Reality), Cinema 4D, 3ds Max, Maya, Fusion 360, AutoCAD.

5. IOT & HARDWARE

• Embedded Systems & Hardware: Arduino, Raspberry Pi, ESP32, ESP8266, STM32, NVIDIA Jetson Nano, RFID/Beacons, HID, Mifare / Access Control Systems, IP PBX Systems (Karel), Digital Signage, Sensor Automation.

GENERAL COMPETENCIES

Advanced ★★★★★

• **IT Strategy & Enterprise Architecture**: Developing technology roadmaps aligned with business objectives and applying Enterprise Architecture (TOGAF) principles.

• **Digital Transformation Leadership:** Digitizing manual business processes and driving technology-led organizational change and innovation culture.

• **AI Strategy & Transformation**: Driving enterprise-wide AI integration, establishing AI Governance aligned with data privacy standards, and designing AI policies.

• **Cybersecurity & Information Security:** Implementing Zero Trust architecture, Endpoint Detection and Response (EDR), Incident Response, and Data Loss Prevention (DLP) strategies.

• **Cloud & Hybrid Infrastructure:** Executing cloud migration strategies from on-premise data centers to hybrid and multi-cloud environments (Azure, GCP, AWS) with cost and performance optimization.

• **IT Governance (ITIL / COBIT) & ITSM**: Establishing IT Service Management (ITSM) based on ITIL v4 and COBIT 5 frameworks, optimizing Service Desk operations, and driving SLA/KPI/OLA performance.

• **Business Continuity & Disaster Recovery**: Conducting enterprise risk and Business Impact Analysis (BIA), and formulating robust Disaster Recovery (DR) strategies.

• **IT Financial & Budget Management:** Planning IT budgets for multi-campus environments, optimizing CapEx/OpEx, and delivering ROI analysis on technology investments.

• **Vendor & Contract Management:** Managing global hardware/software licensing, procurement/RFPs, and vendor contracts (e.g., Microsoft, Google, Fortinet).

• **Program & Portfolio Management:** Steering complex, multi-project IT portfolios concurrently using Agile/Scrum and PMBOK standards within defined scope, budget, and timeline constraints.

• **Executive Leadership & Team Management**: Building, mentoring, and leading high-performing, cross-functional IT teams across multi-campus organizations.

PROJECTS

Eyüboğlu Educational Institutions

- Led the modernization of the enterprise network infrastructure using **HPE Aruba** next-generation networking architecture.
- Led the development of **ESAS Business Process Management System** and enhancements to the School Management Platform.
- Managed mobile application improvement projects to enhance user experience and optimize business processes.
- Designed and developed an **AI-powered WhatsApp Corporate Knowledge Assistant** utilizing institutional knowledge stored in Google Drive PDF repositories.
- Developed role-based AI assistants for students, teachers, parents, administrators, and staff using enterprise knowledge bases.
- Designed AI Agent solutions enabling natural language access to institutional information.

İSTEK Schools

- Led improvements to the corporate website, School Management Portal (İYS), Google Workspace, Microsoft platforms, and enterprise network infrastructure.
- Designed and implemented the institution-wide **MIFARE Smart Card** ecosystem across access control, elevators, printers, interactive boards, attendance systems, and Windows Active Directory authentication.
- Implemented **HP Aruba ESP**, **AirWave**, **802.1X**, and **Network Access Control (NAC)** infrastructure.
- Led the migration to **Google Workspace for Education Fundamentals** and later **Education Plus**, delivering organization-wide adoption and training.
- Managed Microsoft 365 E1 deployment and hybrid identity integration.

Ulus Private Jewish Schools

- Developed and managed multiple institutional web platforms, including:
- School Website • Moodle LMS • Corporate Blog
- Alumni Network • Event Management Platform • Donation Platform
- Led the **1:1 Tablet Learning Initiative** integrating Windows and iPad devices into classroom instruction.
- Successfully migrated institutional email and collaboration services to **Google Workspace for Education**.
- Implemented **Azure AD Hybrid Identity**, Microsoft Intune, and Office 365 integration.
- Designed and implemented IoT projects using **Arduino** and **Raspberry Pi**, including intelligent server room monitoring, environmental alerts, digital signage, and automation.
- Founded and managed the **Student Tech Crew (STC)**, enabling peer-based technical support and technology leadership.
- Designed Raspberry Pi–based Digital Signage infrastructure deployed throughout the campus.

Web Development Projects
Designed, developed, and managed more than **500 corporate websites**, portals, e-commerce platforms, and hosting infrastructures for educational institutions, commercial organizations, and private enterprises between **2002–2017**.
